## CULTURE & HISTORY OF THE ANCIENT NEAR EAST

## Volume 71

Sennacherib and his ill-fated siege of Jerusalem fascinated the ancient world.

Twelve scholars – in Hebrew Bible, Assyriology, archaeology, Egyptology, Classics, Aramaic, Rabbinic and Christian literatures – examine how and why the Sennacherib story was told and re-told in more than a dozen cultures for over a thousand years. From Akkadian to Arabic, stories and legends about Sennacherib became the first vernacular tales of the imperial world. These essays address outstanding historical issues of the campaign and the sources, and press on to expose the stories' theological and cultural roles in inner-cultural dialogues, ethnic origin stories, and morality tales. This book is the first of its kind for readers seeking out the historical and historiographic bridges between the ancient and late antique worlds.
